

EDUCATION

Indraprastha Institute of Information and Technology <i>B.Tech in Computer Science and Engineering</i>	New Delhi, India 2023 – Present
Mira Model School <i>High School Diploma</i>	New Delhi, India 2023

EXPERIENCE (OPERATIONS & PRODUCT)

Fam (formerly FamPay) <i>Software Testing Intern</i>	Remote May 2024 – July 2024
◦ Process Optimization: Streamlined the bug-reporting workflow, reducing resolution time by 15% across the team. ◦ Quality Assurance: Collaborated cross-functionally to execute rigorous user-flow testing, ensuring a seamless CX. ◦ Identified critical bottlenecks in the payment gateway, directly contributing to improved product reliability.	
CoSY Lab, IIIT Delhi <i>Research Intern (Guide: Prof. Ganesh Bagler)</i>	New Delhi, India May 2025 – July 2025
◦ Managed the end-to-end product lifecycle for the <i>Foodoscope</i> frontend, focusing on data accessibility. ◦ Translated complex research data into actionable visual dashboards using first-principles design thinking.	
IIIT Delhi <i>Teaching Assistant - Data Structures and Algorithms</i>	New Delhi, India Jan 2026 – Present
◦ Managing academic operations and logistics for a batch of 100+ students. ◦ Coordinating grading workflows and mentoring students in analytical problem-solving.	

LEADERSHIP & OPERATIONS

Hack The Flame (National Hackathon) <i>Organizer</i>	Mumbai, India Sept 2025 – Dec 2025
◦ Managed logistics and vendor operations for a national event, coordinating on-ground execution for 500+ participants. ◦ Oversaw the budget allocation and sponsor deliverables, ensuring zero operational downtime.	
IEEE-IIITD Student Branch <i>Vice Chairperson</i>	New Delhi, India Nov 2024 – Aug 2025
◦ Led strategy and operations for the largest student branch; boosted event turnout by 20% through process improvements. ◦ Managed a team of 50+ volunteers, delegating tasks effectively to ensure operational excellence.	
Odyssey (Cultural Fest) & E-Summit <i>PR Team Lead</i>	New Delhi, India Aug 2024 – Mar 2025
◦ Handled stakeholder management and external communications for footfalls exceeding 50,000. ◦ Resolved real-time operational crises during events to ensure smooth scheduling.	

PROJECTS

Course Registration System (ERP): Designed a business process tool simulating university operations. Implemented RBAC for secure user hierarchies. (Java, Swing)
F1 Prediction Analytics: Built a predictive model using Random Forest/XGBoost to forecast race outcomes based on real-time API data. (Python, ML)
RISC-V Simulator & Assembler: Developed a comprehensive simulation framework to translate assembly code to machine code. Validated complex logic flows and memory manipulation. (Python)

SKILLS & ACHIEVEMENTS

Skills: Operations Management, Data Analysis, Stakeholder Management, Python, SQL, Process Improvement
Achievements: Winner, Intra-College Business Strategy Challenge (2024); Best Organizing Team Award (Odyssey '24); Creative Student Academic Excellence Award (Mira Model School); Solved 300+ problems on LeetCode.
